

MARCH 2-3 & 9-10 • 2019

TWO FULL WEEKENDS OF EVENTS!

Located just south of Laguna Beach and a one-hour freeway drive from Los Angeles or San Diego, experts believe the 200-foot headland jutting out into the sea at Dana Point serves as a landmark for whales migrating between Alaska and Mexico. During peak season (December through April), 40 to 50 whales pass by every day, making Dana Point the best spot to whale watch in Southern California and a popular destination for winter vacationers. The design of Dana Point Harbor allows for quick access to the open ocean, providing more time for whale watching and less time traveling out to sea. Visitors may also take in sightings from atop the headlands.

Dana Point is an ideal place to visit and vacation, featuring accommodations to fit every budget - from camping at Doheny State Beach, to a stay at the Dana Point Marina Inn in the heart of the Harbor and within walking distance of all the festivities. The city is also home to a number of world-class luxury resort hotels.

Dana Point has much to offer, including a wide variety of seaside dining options, unique shops, enchanting beaches and incredible ocean vistas.

**Welcome to Dana Point -
The Dolphin and Whale Watching
Capital of the World**
